International Visegrad Fund: 15 Years Behind,  
Many More Ahead Conference  
Budapest, 11 December 2015**

The *Antall József Knowledge Centre (AJKC)*, cordially invites you to participate in the conference called *International Visegrad Fund: 15 Years Behind, Many More Ahead* which is organised in cooperation with the Ministry of Foreign Affairs and Trade and the International Visegrad Fund *on 11 December 2015* in Budapest.

AJKC was established in 2010 in cooperation with the Corvinus University of Budapest as an independent, non-governmental organisation, where one of our key aims is to support the intellectual development and research activities of students, researchers and young professionals in line with the philosophy of József Antall, the first freely elected Prime Minister of Hungary, who served between 1990 and 1993. Our institution also puts great emphasis on talent management.

The conference commemorates the 15<sup>th</sup> anniversary of the International Visegrad Fund and its outstanding activity in facilitating and promoting the development of closer cooperation among citizens and institutions in the V4 region, as well as with other countries, with special regard to the Western Balkan and the Eastern Partnership member states. The panel discussions and workshops revolve not only around the scholarships and grant programmes of the IVF but they also examine the future aims and perspectives of the Fund.
